Warsaw, Poland

I am an aspiring full stack developer with knowledge of HTML, CSS, JavaScript, React JS, Redux, Node JS. I am actively looking for opportunities in IT-companies where I can develop, improve and realise my skills in interesting projects. I have had experience building non-commercial websites during my studies and continue to actively develop my web development skills. Open to new opportunities and willing to work hard to grow and bring results to the company's work.

Work Experience

Studying at a programming school "CanSheCode"
February 2023 – March 2025
A studying including the creation of websites and applications (about 30 sites and applications)

Project "QA_May2019"
May 2019 – August 2019
